

Hopper WINDOW

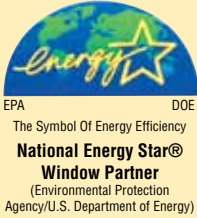

Tri-State

Super High Performance Hopper Window

Tri-State windows represent a dramatic development in materials and design. You can benefit the most by owning the Hopper Window and all of its exceptional features. Fully welded Main-Frame, fully welded sashes, advanced weatherstripping and double locking system, all of which keep out moisture and drafts.

The Hopper Window All-Welded construction creates a one piece sash and frame that is permanently sealed against the elements. The Optimum triple glazed and dual sealed, composite warm edge super spacer between the argon filled panes of glass eliminates any chance of moisture between the glass. Our superspacer is made from a space age silicone composite, originally used on the space shuttle. Both beauty and efficiency make this window the right choice.

LIFETIME WARRANTY

The Most Energy Efficient Window Available Anywhere!!

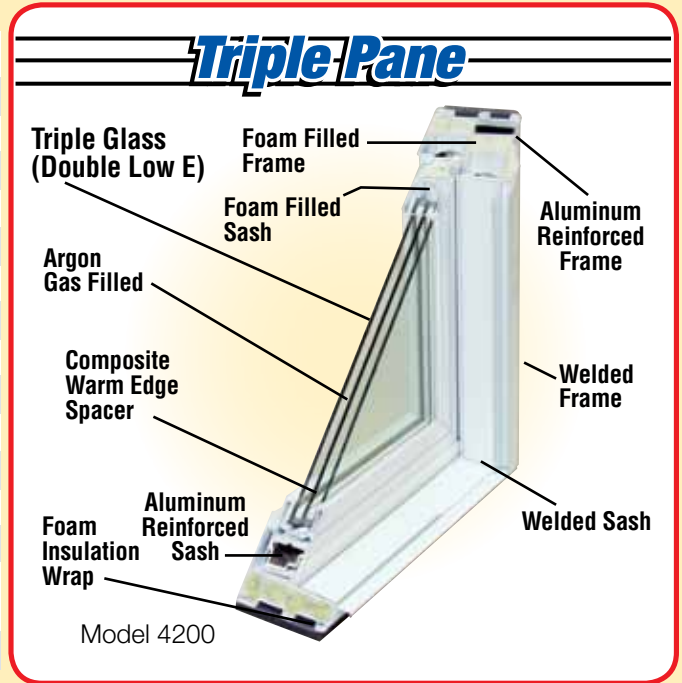

(Based on NFRC Testing & Energy Star Ratings)

More Energy Efficient Than Pella, Andersen, Marvin... ANYONE!

HOPPER WINDOW SPECIFICATIONS

ENERGY EFFICIENCY RATINGS (U-FACTORS)

THE LOWER THE U FACTOR, THE MORE ENERGY EFFICIENT THE WINDOW

Compare to the U-Factors of Anderson, Pella, Home Depot (Silver Line), Sears (Accu-Weld), Schuco, Gorell or other local competition on the Product Directory of the NFRC Website www.nfrc.org

Buy Direct from the Factory ...No Middleman

Ask your representative for the energy ratings of other national and local window manufacturers. You will see that **no one** measures up to Tri-State Windows.
